

## Husqvarna DC-5500 Dust Collection Systems

Husqvarna's dust collection systems can protect workers with unique features to create an almost

dustless environment:

- Husqvarna's DC 5500 includes a three-way filtering system for the efficient containment of dust at a filtration rate of 99.9% @ 1 micron.
- The unique bag disposal system makes easy containment of messy and hazardous substances.

In addition, the DC 5500 also includes built-in phase correction (3-phase power) for increased energy efficiency and the protection of equipment and personnel.
